HOW IT WORKS

This isn't magic. It's *alignment*.

Crystals don't fix your life overnight. They stabilize your frequency so you stop spiraling every 10 minutes — and start moving differently.

01 Diagnose your vibe
Take the quiz. We map your energy leaks to specific stones.

02 Wear your stones
Slip on your match. Let the frequency do its quiet work, daily.

03 Notice the shift
Calmer thoughts. Sharper actions. Softer life. Repeat.

ANCIENT LORE

Crystals weren't invented by *Instagram*.

Civilizations have used stones for protection, healing and power since before recorded time. We just dressed it for the algorithm.

1. **Ancient Egypt** — Lapis lazuli for clarity. Pharaohs called it boss-energy before it was branding.
2. **Ancient India** — Chakras + your internal software. Stones were the patch notes.
3. **Ancient China** — Jade in feng shui — life insurance for your energy field.
